About this Guide

This document is a **condensed introductory version** of the full **7-Step Business Set-up Starter Kit**.

The complete kit — including detailed explanations, practical exercises, templates, and step-by-step guidance — is available exclusively to subscribers inside the **Resource Library**.

A NOTE ON MARKETING BUDGETS (IMPORTANT)

Some online business models require **thousands per month** in ads spends — often in testing stage for a minimum of 3 months — *with no guarantee of return.*

We intentionally steer beginners away from those. Yes, some businesses *can* run ads at £10–£20 per day — but **we don't recommend that at the start.**

At the early stage, beginner entrepreneurs should start with organic traffic to prove their message and offer — then scale with paid ads later.

***A financial hit early on can
destroy confidence.
A low-risk approach builds it.***

1stOnlineBiz101 is built around **low-cost, beginner-friendly business models.**

That means:

- Low operating costs
- No mandatory ad spend
- Organic traffic first

What you read here may differ from other advice online — **that's intentional.**

INTRODUCTION

This Starter Kit is written for **aspiring online business owners** who feel overwhelmed, unsure, or stuck at the starting line.

Its purpose is simple:

- Remove confusion
- Reduce risk
- Help you generate online income **as fast as possible**

In **7 easy-to-follow steps**, you'll learn the **WHAT** and the **HOW** of starting an online business — without needing loads of money or a perfect idea.

You don't need money to start.

You don't need a perfect idea.

You just need a clear path.

STEP 1: VALIDATE YOUR BUSINESS IDEA

Goal – Check if your idea solves a real problem

Action:

- List 2-3 problems you can help with
- Look for existing businesses solving similar problems
- Confirm people are already paying for this online

Outcome:

A simple, validated idea worth exploring.

No idea for a business yet?

Or your idea isn't suitable for a low-cost start?

Read my...

Idea Discovery Pre-Step (here), then repeat this step.

STEP 2: DEFINE YOUR OFFER

Goal:

Get crystal clear on what you're actually selling.

Action:

Write one sentence:

"I help ___ achieve ___."

- Identify the main benefit
- Keep one clear offer

Outcome:

A 10-second offer you can explain confidently.

Key Insight

- **Best results:** One person + one problem + one outcome
- **Poor results:** Broad audience + vague solution

You don't need to be impressive or original — just **clear**.

STEP 3: CHOOSE YOUR NICHE

Goal:

Identify who needs your offer the most

Action:

- Choose a specific type of client
- Research where they hang out
- Note the exact language they use

Outcome:

A clear niche and simple buyer profile.

Tip:

Start with one person, not a market.

Keep it realistic:

- Gender
- Age range (10–15 years works best)

Avoid vague labels like “anyone” or “mums”

STEP 4: COMPLETE THE MVO EXERCISE

Goal:

Sharpen your message,
positioning, and offer.

Action:

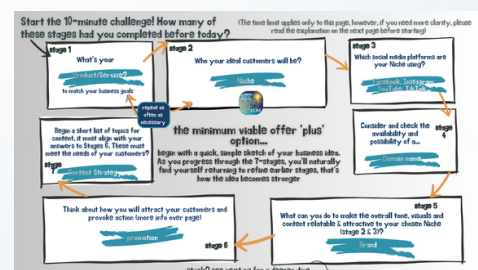

- Are you addressing their real challenges?
- Does your solution clearly fit?
- Refine the offer if needed

Outcome:

A stronger, more compelling
offer people understand
quickly.

Viable Offer

STEP 5: START OUTREACH

Goal:

Talk to real people and test demand.

Action:

- Reach out to 5 people per day for 5 days
- Focus on conversations, not selling
- Look for unmet needs or strong interest

Outcome:

Real validation from real humans.

With Zero Budget”

PDF, I include a full chapter
on finding customers and
engaging in relevant
communities.

STEP 6: GET YOUR FIRST 1-2 CLIENTS

Goal:

**Talk to real people and
test demand.**

Action:

- **Reach out to 5 people
per day for 5 days**
- **Focus on
conversations, not
selling**
- **Look for unmet needs
or strong interest**

Outcome:

**Real validation from real
humans.**

Tip:

Your first offer can be free or heavily discounted in exchange for testimonials — just be transparent.

Once you have 4–6 testimonials, consider raising prices.

STEP 7: BUILD A SIMPLE WORKFLOW

Goal:

Create a repeatable delivery system.

Action:

- Set up onboarding
- Create a delivery checklist
- Define communication steps
- Collect testimonials
- Raise prices slightly

Outcome:

A simple, professional workflow ready to grow.

Tip:

If you consistently convert 3–4 clients per 35 conversations, you're now in a position to consider paid ads — if you choose to.
